

Efficiency and Resilience

De Barbieri, Navajas, Blumetto, Ciappesoni

Visitors: Integrity project

2023

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Grant Agreement N° 772787

Smarter

Challenges of sustainable production

Growing global demand for food and fibre

- Increased agricultural production
- Intrinsic and extrinsic quality

Environmental care

- Efficient and responsible use
- Conservation of resources and biodiversity

Climate change and GHG mitigation

- Reduction of methane emission
- Mitigation commitments

Genetics + Management

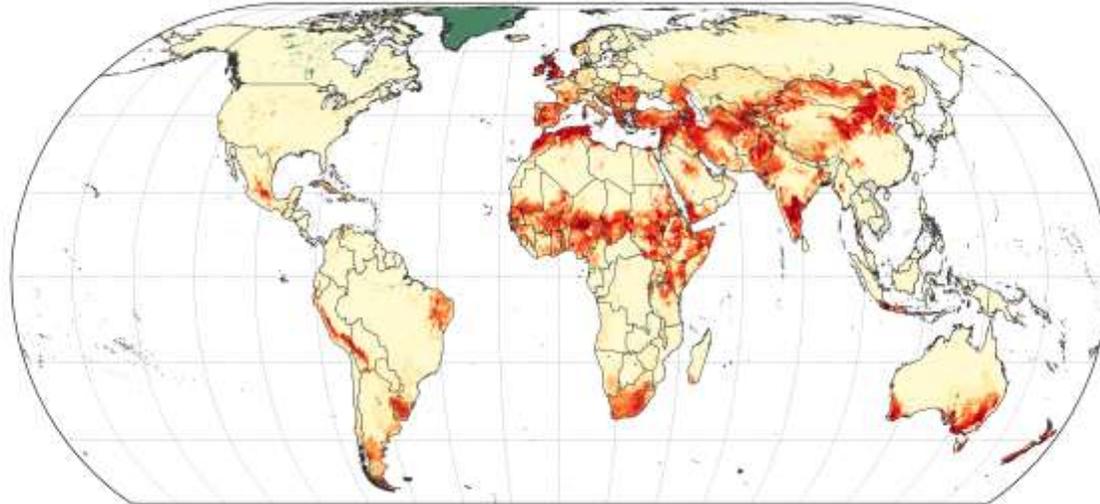

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Grant Agreement N° 772787

Sheep production context

Gilbert et al. 2022. Global sheep distribution in 2015, Harvard Dataverse, V1
WWF. 2018. Living Planet Report - 2018: Aiming Higher. 75 p
Mottet et al. 2017. Global Food Security 14, 1–8.
Joy et al. 2020. Animals 10, 867

From wet to arid regions

From grazing outdoors on marginal soils to high controlled intensive indoors production systems

Variable access to food (quantity and quality) and water

Global challenges:

Feed/food competition
Use of arable lands
Contribution to GHG emissions
Coexistence with wildlife
Labour

Being:

A source of fibre and food

Socio-economic relevance (income, food security, human well-being)

Potential to play a role in Biogenic C cycle

Ecosystem services (recycling, biodiversity,...)

"Lana Celeste a Qatar": proyecto que viste a la selección con trajes de lana Merino

El ministro de Ganadería, Agricultura y Pesca, Fernando Mattos y el presidente de la Asociación Uruguaya de Fútbol, Ignacio Alonso, presentaron este martes 30, en la Asociación Uruguaya de Fútbol, el proyecto "Lana Celeste a Qatar". La iniciativa será una gran oportunidad para promocionar a Uruguay como exportador de productos naturales, diferenciados y de alto valor, dado que los jugadores vestirán durante el mundial de Qatar 2022, trajes confeccionados con lana Merino uruguaya de altísima calidad.
