

Genome-Wide Association Study for Milk Composition Traits of Canadian Alpine and Saanen Goats

Erin Massender, Hinayah R. Oliveira, Luiz F. Brito, Laurence Maignel, Mohsen Jafarikia, Christine F. Baes, Brian Sullivan and Flavio S. Schenkel

emassend@uoguelph.ca

Take Home Message:
 The GWAS identified positional candidate genes on CHI6 for Protein (%) in both breeds and CHI14 for Fat (%) only in Saanen.
